

*National Conference on “Colors of
Healthcare- Good handling practice for
Proficient Hospitals” Organized By Max
Medisupport Pvt. Ltd. On 12th Feb, 2011.*

Introduction:

We all know that technology is playing a crucial role in the healthcare field and everyone knows what is healthcare & for what the technologies are used in healthcare. But what happens when use of technology in healthcare is not efficient due to either improper handling or unawareness of proper handling.

Healthcare technology implies a new way to promote healthcare in a more efficient and effective ways, search of new methodology to treat mankind, & invent new way or instrument to make treatment easy in healthier & cost effective way.

Max Medisupport, for the first time in the world recognized the importance of something called as “Good Handling Practices (GHP)”. To introduce GHP, these are the set of standards formed by a core team of Professionals comprising of Quality Assessors, Hospital Equipment Planners and Professionals at the user end.

The standards are made to increase the efficiency, decrease the errors and minimize the wear & tear of equipments. The GHP also focus on Technicalities, standardization, advancement in Technology, overall Process Management so as to be at par with the Worlds innovations & increased efficiency with Implementation of GHP.

These standards are made keeping the following points at the core:

- ◆ Application
- ◆ Maintenance
- ◆ Preventive Measures

Using these objective elements in mind, we have laid down the SOPs in compliance with the standards & Six Sigma as a baseline concept.

The standards for each objective element are in the following layout:

1. Identification of Quality indicators
2. SOPs for GHP
3. Implementation of SOPs in System
4. Maintenance of GHP
5. Continuity of GHP
6. Assessment/Audits

Event Brief:

Our upcoming event *“Colors of Healthcare-Good Handling Practice for Proficient Hospitals”* is a small step to spread awareness to everyone on how important is GHP with advancement in technology and the relationship of technology with the healthcare industry. During which we will disclose that the use of technology is not as difficult as we think, but it is not as easy too.

Inviting you all to join the revolution of **“Helping Healthcare Heal Healthier”**, your participation will enhance the enlightenment of the era for better use of technology in the process of healing

Agenda- "Colors of Healthcare- GHP for Proficient Hospitals"

0900-0930- Registration

0930-1000- Welcome Note & Event Objective

1000-1045- GHP- (Good Handling Practices) - An Introduction

1045-1100- Tea Break & Networking

1100-1145 - GHP- Efficient Healthcare through advancement in technology

1145-1230- Efficient handling - HR, IT & Technology as per GHP

1230- 1315-Impact of instrumentation in recent advent in healing (diagnostic system).

1315-1400- Lunch Break & Networking

1400-1500- How to solve technical problems (within) case-study & Solutions as per GHP

1500-1545- GHP- Concept of AIC\AMC\benefit – Know How

1545- 1630- Role of CE \ GMP \ GCP & GHP (Concept of reality)

1630-1700- Tea Break & Networking

1700-1745- Critical factors affecting Equipment Handling- How to overcome those factors as per GHP.

1745- 1800- Certificate Distribution & Vote of Thanks

Speakers:-

- ◆ **Dr. G. Ravindran- President, Biomedical Engineering Society of India**
- ◆ **Mr. Ashwin- Chief People Officer, Vikram Hospitals**
- ◆ **Dr. Sameer Khan- Director- Medical Technology & Planning- Fortis Hospitals.**
- ◆ **Dr. Amit Nath-Chairman & Managing Director, Max Medisupport Pvt. Ltd.**
- ◆ **Dr. Ashutosh Mundkur- Associate Vice President, Sutures India**
- ◆ **Dr. Mudit Saxena- Centre Head, Fortis Hospitals, Bangalore.**
- ◆ **Mr. Shyam Babu- Apollo Hospitals, Bangalore.**

Who Can Attend:

- Hospital Owners
- Hospital Administrators
- Medical Directors
- Directors
- Hospital Operations
- Healthcare Professionals
- Biomedical Engineers of Hospitals
- Nurses
- Technicians
- OT Staff
- Lab Technicians
- Pathologist
- Diagnostics Professionals
- Healthcare management Students
- Bio Medical Engineering Student
- Others

Benefit for the Delegates:-

1. Networking opportunity with experts from Hospitals
2. Networking opportunity with Biomedical Equipment manufacturing company professionals
3. Open platform for more career opportunity
4. Knowledge up gradation
5. Green belt Certification on Good handling Practices
6. Exposure to the real time industry
7. Networking with professionals from Bio- Medical Engineering Society of India

For Registrations Contact:

**Ms. Jasleen Kaur- Delegate
Coordinator**

Contact No.- 097382 08840

Phone: 080- 40931112

Ms. Soniya- Student Coordinator

Contact No. - 9035687496

**Venue:- Hotel Atria, P.B. # 5089
1, Palace Road, Bangalore - 560 001**

Cheques/ DD to be payable in the name of
Max Medisupport, Bangalore

Registration

Before 25th Jan 2011		INR
Workshop Registration (Single)	Delegates	2250
	Students	900
(Group discount for 10 registrations or more)	Delegates	1850
	Students	800
After 25th Jan 2011 or for Spot registrations	Delegates	2500
	Students	1000
